One hook. One deal. One page.

UAE real estate is a AED 760 billion annual transaction market fragmented across government systems and hundreds of brokerages. ZAAHI is the operating system that unifies it. Live today at zaahi.io. Rudi's AED 1,000,000 takes controlling investor position in the Agency (80 %) during the payback period, converts to an equal three-way partnership (33.34 %) on the earlier of 2× cumulative return or 5 years, and grants Rudi 10 % of the Platform for life. The Platform carries the IPO path (**10-year projected total return: AED 437 M on AED 1 M Investment = 437× MOIC, ~80 % IRR**); the Agency is the operational cash engine targeting AED 7.8 M Year 1 revenue on 12 premium land plot + 2 off-plan floor deals.

The Challenge

UAE real estate — AED 682.6 billion in 2025, on pace to exceed AED 1 trillion in 2026 — operates across disconnected silos: DLD, RERA, DDA, Abu Dhabi Municipality, ADGM, DIFC, VARA, and hundreds of brokerages. A single transaction touches ten or more systems. AI, blockchain, and 3D geographic intelligence remain experimental. The platform that unifies this market wins the decade.

The Platform

ZAAHI is built on the **Master Tree v3** — 85 integrated modules across 12 functional blocks. In production today: **114 verified parcels** loaded, **556 000 plots** mapped across Dubai, Abu Dhabi, and Oman via PMTiles, 3D ZAAHI Signature visualisation, the Archibald AI assistant, a RERA-compliant single-tier referral program, and Phase 1 dashboards for Owners, Buyers, and Brokers. Approximately **6–8 % of the Master Tree is live** today; the remaining 92 % is sequenced across a multi-year roadmap, funded from agency cash flow.

Full-lifecycle architecture. Platform architecture covers the full real estate lifecycle — land plots, off-plan development, ready property (residential + commercial), rental segments (long-term + short-term + co-living + holiday homes), hospitality, mixed-use, warehouse / industrial, and B2B2G partnerships with banks, developers, luxury brands, cities, and governments. Base case revenue focuses on premium plots + off-plan floors + tier-based subscriptions + transactional Service Fee + data licensing; full-lifecycle expansion is the 10-year upside. Unlike competitors focused on single segments (Bayut listings / Huspy mortgages / PRYPCO tokenisation), ZAAHI architects all real estate segments plus B2B2G partnerships into one Master Tree. See the Profit & Loss Statement §6 for 45 documented revenue streams — 15 in base case + 30 expansion opportunities.

The Team

Zhan Ryspayev — Founder, CEO/CTO. 17 years real estate; full-stack engineer; RERA-licensed; architect of the ZAAHI platform and Master Tree v3 vision.

Dymo Tsvyk — Co-founder, Operations Principal. 18+ years global operations leadership at Stolt-Nielsen and Bahri; in UAE real estate since 2018; RERA-licensed.

Rudi — Principal Investor, Board Member. AED 1,000,000 commitment; controlling Agency investor during payback; equal Agency partner after Sunset; 10 % Platform for life; one board seat of three.

The Deal

Equity — Agency (pre-Sunset, Years 0–3 or until Financial Trigger)

Rudi	Dymo	Zhan
80 %	10 %	10 %

Equity — Agency (post-Sunset, automatic rebalance)

Rudi	Dymo	Zhan
33.34 %	33.33 %	33.33 %

Equity — Platform (ADGM HoldCo, perpetual)

Zhan	Dymo	Rudi
80 %	10 %	10 %

Sunset Clause

Triggers on the **earlier** of: - **(a)** Rudi receives cumulative distributions from both entities totalling **AED 2,000,000**; OR - **(b) 5 years** since SAFE execution.

Upon trigger: Agency rebalances 80/10/10 → 33.34/33.33/33.33. **Platform cap table unchanged. Profit split unchanged.**

Base-case Financial Trigger timing: mid-Year 3 (cumulative Rudi distributions reach AED 2 M ~month 6 of Y3 on the base-case revenue trajectory). Time Trigger is a backstop.

Profit distribution (Agency, per quarter — fixed for lifetime, pre- and post-Sunset)

Destination	Share
Platform Development Fund	70 %
Rudi	10 %
Dymo	10 %
Zhan	10 %

The 70 % flow is a tax-deductible inter-company Service Fee that funds platform development.

Protections

- 1× non-participating liquidation preference
- **Anti-dilution — Agency:** None (no Series rounds planned)
- **Anti-dilution — Platform:** Weighted-average until Series A first closing; pro-rata rights thereafter
- Most Favoured Nation for 12 months
- Board seat (three directors; simple majority at Board; Reserved Matters shareholder vote — Rudi 80 % controls Agency pre-Sunset; 2 of 3 Shareholders post-Sunset; Zhan 80 % controls Platform always)
- Monthly, quarterly, annual information rights + 48-hour material-event notices + Sunset ledger
- 2-year founder vesting with 6-month cliff (Dymo and Zhan; Rudi fully vested)

IPO path

Through the Platform only. The Agency operates as a brokerage — cash engine, not publicly traded. The Platform (ADGM HoldCo) is the long-horizon asset that raises Series A / B / C and targets IPO Years 5–10 at a projected AED 4.8–7.2 B valuation (8–9× revenue multiple on projected Y10 Platform revenue of AED 800 M, scaling from Y5 AED 60 M). Rudi's 10 % Platform participates in the IPO outcome; weighted-average anti-dilution protects through Series A; pro-rata rights after.

Financial Snapshot (Base Case)

Metric (AED, consolidated)	Year 1	Year 5
Total Revenue	8.31 M	190 M
Agency Revenue	7.80 M	130 M
Platform Revenue	0.51 M	60 M
EBITDA	5.00 M	95 M

Rudi cumulative to end-of-year	407 k	14.27 M

10-year Rudi total return (Base): AED 437 M on AED 1 M Investment (**437× MOIC**, ~80 % IRR), composed of ~AED 115 M Agency + Platform cash distributions and ~AED 322 M Platform IPO proceeds (Rudi 5.8 % post-dilution stake on AED 5.6 B IPO valuation).

Agency Y1 is 12 premium land plot deals (AED 450 k avg commission) + 2 off-plan floor-level sales (AED 1.2 M avg commission). Platform Y1 is 40 subscribers across five tiers (Developer AED 50 k/yr · Broker AED 20 k/yr · Architect AED 10 k/yr · Investor/Buyer AED 5 k/yr · Land Owner AED 3 k/yr) plus 2 % ZAAHI Service Fee on platform-routed deals. See the Profit & Loss Statement for full 16-section professional P&L with scenario analysis.

Tax efficiency (three-layer design)

- **Agency** (Dubai Mainland LLC): 9 % UAE Corporate Tax above AED 375,000 taxable income. **SBR not applicable Y1** — Agency revenue AED 7.8 M exceeds AED 3 M SBR threshold. 70 % inter-company Service Fee is a deductible expense, reducing effective Agency CT rate to ~2 % of gross Agency profit.
- **Platform** (ADGM HoldCo): Qualifying Free Zone Person status targets 0 % on qualifying income.
- **Shareholders**: UAE has no personal income tax and no dividend withholding.
- **Transfer Pricing**: local file required from Year 1 (related-party transactions exceed AED 3.75 M threshold).

Target combined effective tax burden: **~2–4 %** across the structure. Full detail in the Dividend Policy §3 and §9 Tax Efficiency Design and in the Profit & Loss Statement §12.
