Document: Investor Package Index **Prepared for:** Rodolphe Belin ("Rudi") — Principal Investor **Prepared by:** Zharkyn Ryspayev ("Zhan") — Founder, CEO/CTO · Dmytro Tsvyk ("Dymo") — Co-founder, Operations Principal **Date:** 2026-04-19 **Meeting:** Sunday 2026-04-19, Al Jurf **Agency formation documents submitted:** Monday 2026-04-21 **Status:** DRAFT — all legal documents subject to UAE counsel review before execution **Classification:** CONFIDENTIAL

Contents

Purpose

This package supports the formal close of Rudi's AED 1,000,000 investment into ZAAHI. Documents are designed for the **Sunday 2026-04-19 meeting in Al Jurf**, the Monday 2026-04-21 agency-documents submission, and the Shareholders Agreement close thereafter.

ZAAHI is an operating company with a live production platform at zaahi.io. The investment formalises a partnership that emerged organically after Rudi experienced the product and technology on April 17, 2026.

Positioning note

The package reflects a **controlling-investor-to-equal-partnership hybrid** structure. Rudi enters as the controlling Agency investor (80 %) during the payback period; the Agency rebalances to a three-way equal partnership (33.34 % Rudi / 33.33 % Dymo / 33.33 % Zhan) on the earlier of (a) AED 2,000,000 cumulative distributions to Rudi or (b) 5 years since SAFE execution. **Base case: Financial Trigger fires mid-Year 3.** Platform (ADGM HoldCo) is majority-owned by Zhan (80 %) throughout — Platform does not go through Sunset. The Platform is the IPO path (**10-year projected total return: AED 437 M on AED 1 M = 437× MOIC, ~80 % IRR**); the Agency is the operational cash engine targeting AED 7.8 M Year 1 revenue on 12 premium land plot deals + 2 off-plan floors. Every Agency deal routes 70 % of net profit to Platform development via a tax-deductible inter-company Service Fee and 10 % each to Rudi, Dymo, Zhan in personal cash distributions. Tax-efficient by design: target combined effective tax rate **~2–4 %** across Agency, Platform, and shareholder layers.

Document index

#	Document	Purpose	Signing Sunday?
1	Investor Package Index	This orientation, agenda, and Q&A summary.	—
2	Executive Summary	One-pager. Reads first; shareable with counsel.	No — reference
3	Pitch Deck	18-slide narrative (markdown source for Figma render).	No — presentation
4	Memorandum of Understanding	Non-binding MOU. Rudi signs Sunday; covers structure, Sunset, vesting, IP transfer.	**Yes — Sunday 19 April**
5	Term Sheet	Indicative commercial terms for the Post-Money SAFE. Clause-by-clause legal / plain English / rationale.	No — counsel-reviewed and signed post-MOU
6	Financial Model	Excel template structure. Revenue (12 plots + 2 floors Y1 → AED 190 M Y5), OpEx, cashflow, 4 Sunset scenarios (Financial Trigger mid-Y3 base), Platform IPO scenarios (AED 5.6 B base IPO), tax efficiency.	No — for discussion & Excel build
7	Launch Plan	Operational playbook for the first 12 months (12 premium plots + 2 off-plan floors Y1 target, AED 7.8 M Agency revenue).	No — operational reference
8	Profit Distribution Mechanics	How the 70 / 10 / 10 / 10 split works; Sunset mechanics; three-layer tax efficiency design.	No — informs SHA drafting
9	Zhan Protections	Founder protection addendum — Zhan (Salary Floor + Tag-Along / ROFR).	No — informs SHA drafting
10	Dymo Protections	Co-founder protection addendum — Dymo (symmetric to Zhan, Agency-anchored).	No — informs SHA drafting
11	Q&A Preparation	Anticipated Rudi questions with direct answers.	No — internal prep
12	Profit & Loss Statement	Professional P&L — Series-A-due-diligence-grade. Year 1 target **AED 8.3 M revenue** and Year 5 target **AED 190 M revenue**. Includes tier-based subscription model (Developer / Broker / Architect / Investor / Owner), single-tier RERA-compliant referral program, scenario analysis, sensitivity analysis, 45-stream revenue architecture (15 base case + 30 expansion	No — financial reference

#	Document	Purpose	Signing Sunday?
		opportunities), Rule of 40 benchmarking, Platform IPO exit scenarios (**437× 10-year Rudi return base case**), and comparable-company analysis against 17 public + private PropTech benchmarks.	

Reading order for Rudi

Allow ~120 minutes for full package review.

1. **Executive Summary** (5 min)
2. **Pitch Deck** (15 min)
3. **Memorandum of Understanding** (5 min) — the document Rudi signs Sunday
4. **Term Sheet** (20 min)
5. **Financial Model** (10 min)
6. **Profit & Loss Statement** (25 min) — detailed financial projections with benchmarks
7. **Profit Distribution Mechanics** (10 min) — Sunset mechanics + Tax Efficiency
8. **Zhan Protections** (5 min)
9. **Dymo Protections** (5 min)
10. **Launch Plan** (10 min)
11. **Q&A Preparation** (5 min)

Sunday 2026-04-19 Al Jurf meeting — agenda

Venue: Al Jurf, UAE. Approximate duration: 2 hours.

Segment	Lead	Outcome
Welcome + context-setting	Zhan + Dymo	Rudi is oriented; the package is in hand
Product live demo on laptop	Zhan	`zaahi.io` behaves exactly as April 17
Pitch deck walkthrough (slides 1–18)	Zhan + Dymo	Complete understanding of product, market, team, strategy
Master Tree v3 visual — 10-year roadmap	Zhan	Rudi sees what the AED 1 M unlocks beyond Year 1
Term Sheet clause-by-clause review	Dymo leads	Each clause confirmed by Rudi or flagged for counsel
Financial model + Sunset + Platform IPO scenarios	Zhan leads	Year 1–5 trajectory, 4 Sunset scenarios, IPO exit paths agreed
Tax efficiency (three-layer design)	Zhan + Dymo	Rudi understands ~2–4 % effective rate path
Q&A	All three	No unanswered question goes home
MOU signature	All three	MOU signed; counsel engagement confirmed

---

Signing sequence

```
Sunday 2026-04-19        → MOU signed by all three Parties at Al Jurf
Monday 2026-04-21        → Agency formation documents submitted (DED
                           name reservation, draft AoA, KYC)
First weeks              → UAE counsel engaged (fast-track firm for
                           MOU + SAFE review)
2-4 weeks from submission → Dubai Mainland LLC registered;
                           RERA company broker licence in parallel
Upon entity completion   → Post-Money SAFE executed;
                           AED 1,000,000 wired
June – July 2026 target → First agency deal closed (DLD transfer
                           certificate); ADGM HoldCo formation
                           triggered upon first closed deal
After first closed deal → First profit distribution on quarterly
                           cadence per SHA Dividend Policy
Later                    → Shareholders Agreement executed
                           with top-tier counsel
Sunset trigger (earlier of):
  (a) Rudi receives cumulative AED 2,000,000 from Agency + Platform; OR
  (b) 5th anniversary of SAFE Closing Date
  → Agency rebalance: Rudi 80 % → 33.34 %; Dymo 10 % → 33.33 %;
                      Zhan 10 % → 33.33 %
  → Platform cap, profit split, Rudi's Platform 10 % unchanged
```

What Rudi takes home Sunday 2026-04-19

A printed and bound physical package in the following order:

1. This **Investor Package Index** — orientation and agenda.
2. **Executive Summary** — one-pager.
3. **Pitch Deck** — 18 slides printed one-per-page on A4 landscape (or PDF on tablet).
4. **Memorandum of Understanding** — to be signed (three signature blocks + optional witness).
5. **Term Sheet** — for clause-by-clause review.
6. **Financial Model** — specification (with Excel / Google Sheets file URL on the cover page).
7. **Profit & Loss Statement** — professional P&L with scenario / sensitivity analysis and PropTech comparable benchmarks.
8. **Launch Plan** — operational 12-month roadmap.
9. **Profit Distribution Mechanics** — dividend mechanics + Sunset mechanics + tax design.
10. **Zhan Protections** — Zhan's protection addendum.
11. **Dymo Protections** — Dymo's protection addendum.
12. **Q&A Preparation** — anticipated questions, answered.

Binder cover: navy leather or premium stock, gold-foil ZAAHI wordmark, "CONFIDENTIAL · Prepared for Rudi · Sunday 2026-04-19 · Al Jurf" in subtle gold footer.

Also provided: - USB-C memory stick with the same content as PDF + Excel model. - Link to a Google Drive shared folder (view-access controlled). - Three signed paper copies of the MOU (one per Party).

Legal counsel recommendations

Two-firm split is standard for this kind of close:

Fast-track (MOU + SAFE review, first weeks) - Crimson Legal — startup-focused, pragmatic pricing (AED 40–100k range). - **Kayrouz & Associates** — tokenisation + financial services specialist (AED 50–120k range).

Top-tier (SHA, AoA, entity governance) - Al Tamimi & Company — regional leader, strongest corporate + RE + TMT bench (AED 150–300k range). - **Hadef & Partners** — top local UAE firm (AED 100–200k range).

Exact firm selection is Zhan + Dymo's call based on initial consultation.

Q&A preparation — likely Rudi questions

Full list with detailed answers in the Q&A Preparation document. Abridged here:

On ZAAHI product

Q: What is actually live today? A: `zaahi.io` in production with 114 parcels, 556,000 plots mapped across Dubai + Abu Dhabi + Oman via PMTiles, 3D ZAAHI Signature, Phase 1 dashboards (Owner/Buyer/Broker), RERA-compliant single-tier referral program (commission-based), tier-based role subscriptions (Developer / Broker / Architect / Investor / Owner), Archibald AI assistant, feasibility calculator.

Q: How much of the Master Tree is built? A: Approximately 6–8 % by section count. 2 of 85 sections fully built, 19 partial, 16 stubbed, 48 not started.

On the investment

Q: Why 80 % Agency equity initially? A: Rudi is the sole outside capital source for Agency launch. 80 % reflects his full capital risk during payback period. After Sunset (2× return or 5 years), Agency rebalances to three-way equal partnership: Rudi 33.34 % / Dymo 33.33 % / Zhan 33.33 %. The 0.01 pp tiebreaker goes to Rudi in recognition of his capital contribution. Agency implied post-money: AED 1,250,000.

Q: Why only 10 % of the Platform? A: Zhan built the entire Platform before this deal. The 80 % Platform position recognises founder technical authorship. The 10 % Platform grant to Rudi (and 10 % to Dymo) is a package term that lets Rudi participate in Platform upside — since 70 % of Agency profit is routed to Platform development, the Platform is indirectly funded by Rudi's capital. Platform does NOT go through Sunset.

Q: How does profit distribute? A: 70 % Platform (tax-deductible Service Fee), 10 % each to Rudi, Dymo, Zhan. Fixed for the lifetime of the Agency, identical pre- and post-Sunset.

On governance

Q: Do I get a board seat? A: Yes. Three-director Board: Zhan, Dymo, Rudi. Ordinary Board matters by simple majority (2 of 3). Reserved matters: pre-Sunset Agency — Rudi's 80 % controls; post-Sunset Agency — at least 2 of 3 Shareholders; Platform (perpetual) — Zhan's 80 % controls.

Q: What about future dilution? A: Agency — no anti-dilution (Agency does not raise Series rounds; its only cap-table change is the Sunset rebalance, pre-agreed). Platform — weighted-average (broad-based) anti-dilution until Series A first closing. After Series A: pro-rata rights (Rudi's own capital, maintain up to 10 % Platform).

On exit

Q: What's the exit path? A: **Platform IPO Years 5–10.** Agency is an operational brokerage (not publicly traded); potential strategic acquisition possible in Years 3–5. Platform raises Series A / B / C and targets IPO at projected AED 4.8–7.2 B valuation (8–9× revenue multiple on Y10 projected Platform revenue of AED 800 M). Rudi's 10 % Platform (weighted-avg protected through Series A, pro-rata after) participates in IPO outcome. Dual upside: quarterly Agency distributions + Platform IPO proceeds. 10-year projected total return Base: AED 437 M on AED 1 M Investment (437× MOIC).

On tax

Q: How much of my profit share reaches me after tax? A: UAE has no personal income tax. Three-layer design: Agency 9 % CT (SBR not applicable at Y1 revenue AED 7.8 M > AED 3 M threshold per Ministerial Decision 73 of 2023) with 70 % Service Fee deduction reducing effective rate to ~2 %; Platform QFZP 0 % on qualifying income per Ministerial Decision 229 of 2025; shareholder 0 % UAE. Target combined **~2–4 %** effective rate. Of every AED 1 M gross Agency profit, ~AED 965 K–980 K flows to Platform + shareholders after UAE tax.

Non-negotiable principles

These inform every document in this package.

1. **Rudi's Agency equity: 80 % pre-Sunset → 33.34 % post-Sunset.** Rudi is the controlling Agency investor during payback period, equal partner thereafter.
2. **Platform is Zhan's asset (80 % perpetual), IPO path goes through Platform only.** Dymo 10 %, Rudi 10 % Platform for life; Platform does NOT go through Sunset.
3. **Profit split 70 / 10 / 10 / 10 fixed for the lifetime of the Agency.** Same pre- and post-Sunset. 70 % is the Platform-financing Service Fee (tax-deductible).
4. **Sunset triggers automatic: earlier of AED 2 M cumulative OR 5-year anniversary.** No Board discretion; self-executing SHA clause.

5. **Anti-dilution: Platform only, weighted-average up to Series A first closing only.** Pro-rata rights after Series A. Agency has no anti-dilution (no Series rounds planned).
6. **ZAAHI is one company, two entities.** Agency is the immediate revenue engine; Platform is the long-horizon asset with IPO path.
7. **Tax efficiency by design** — three-layer strategy (Agency 9 % CT with 70 % Service Fee deduction + QFZP Platform + 0 % personal; TP local file from Y1) targets ~2–4 % combined effective rate.
8. **Additive only for Master Tree.** 85 sections are the canonical surface.

What remains for Zhan + Dymo to refine before Sunday

1. **Rudi's legal vehicle.** Personal vs SPV vs family office.
2. **Platform QFZP status confirmation.** Counsel to confirm QFZP qualifying-income characterisation.
3. **Salary floor calibration.** Year 1 figure within AED 30,000 – 50,000 range.
4. **First-deal trigger for Platform entity formation.** "First closed agency deal = DLD transfer certificate".
5. **Office location.** Decision on Agency office lease.

Gaps requiring professional legal review

- **SAFE tax treatment** under UAE CT regime.
- **Sunset ledger mechanics** — automatic share-transfer execution without further Board resolution.
- **Weighted-average anti-dilution formula** — exact clause language for the Platform.
- **Platform QFZP status** — transfer-pricing study for inter-company Service Fee.
- **Dividend Policy clause language**.
- **RERA Broker Card transition** — re-issuance under new LLC.
- **Abu Dhabi nexus** — if Agency office in Abu Dhabi, ADREC registration.

End of Investor Package Index.
