Purpose

This package supports the formal close of Rudi's AED 1,000,000 investment into ZAAHI. Documents are designed for the **Sunday 2026-04-19 meeting in Al Jurf**, the Monday 2026-04-21 agency-documents submission, and the Shareholders Agreement close thereafter.

ZAAHI is an operating company with a live production platform at zaahi.io. The investment formalises a partnership that emerged organically after Rudi experienced the product and technology on April 17, 2026.

Positioning note

The package reflects a **majority-investor / sunset-to-founders** structure. Rudi enters as the 80 % owner of the Agency (Dubai Mainland LLC); the built-in Sunset Clause automatically converts his agency holding to 10 % once he has received 2× in cumulative cash distributions or five years have passed, whichever comes first. Rudi also holds 10 % of the Platform (ADGM HoldCo) for life. The structure gives Rudi downside protection (controlling stake during payback), upside participation (10 % Platform lifetime), and a defined exit glide-path (sunset).

Founders retain operational control by role (Zhan as CEO/CTO; Dymo as Operations Principal), hold minority equity pre-sunset (10 % each of Agency; Zhan 80 % Platform, Dymo 10 % Platform), and inherit Agency control post-sunset (45 % each).

Document index

#	Document	Purpose	Signing Sunday?
1	README.md	This index. Orientation, agenda, Q&A.	—
2	EXECUTIVE_SUMMARY.md	One-pager. Reads first; shareable with counsel.	No — reference
3	PITCH_DECK_v1.md	18-slide narrative (markdown source for Figma render).	No — presentation
4	MOU_RUDI.md	Non-binding Memorandum of Understanding. Rudi signs Sunday; covers structure, sunset, vesting, IP transfer.	Yes — Sunday 19 April
5	TERM_SHEET.md	Indicative commercial terms for the Post-Money SAFE. Clause-by-clause legal / plain English / rationale.	No — counsel-reviewed and signed post-MOU
6	FINANCIAL_MODEL_V1.md	Excel template structure. Revenue, OpEx, cashflow, 4-scenario sunset waterfall, sensitivity.	No — for discussion & Excel build
7	LAUNCH_PLAN.md	Operational playbook for the first 12 months.	No — operational reference
8	PROFIT_DISTRIBUTION_MECHANICS.md	How the 70 / 10 / 10 / 10 split works; sunset mechanics; tax treatment.	No — informs SHA drafting
9	ZHAN_PROTECTIONS.md	Founder protection addendum — Zhan (Salary Floor + Tag-Along / ROFR).	No — informs SHA drafting
10	DYMO_PROTECTIONS.md	Co-founder protection addendum — Dymo (symmetric to Zhan, Agency-anchored).	No — informs SHA drafting

#	Document	Purpose	Signing Sunday?
11	Q_AND_A_PREP.md	Anticipated Rudi questions with direct answers.	No — internal prep

Reading order for Rudi

Allow ~90 minutes for full package review.

1. **EXECUTIVE_SUMMARY.md** (5 min)
 2. **PITCH_DECK_v1.md** (15 min)
 3. **MOU_RUDI.md** (5 min) — the document Rudi signs Sunday
 4. **TERM_SHEET.md** (20 min)
 5. **FINANCIAL_MODEL_V1.md** (10 min)
 6. **ZHAN_PROTECTIONS.md** (5 min)
 7. **DYMO_PROTECTIONS.md** (5 min)
 8. **PROFIT_DISTRIBUTION_MECHANICS.md** (10 min)
 9. **LAUNCH_PLAN.md** (10 min)
 10. **Q_AND_A_PREP.md** (5 min)

Sunday 2026-04-19 Al Jurf meeting — agenda

Venue: Al Jurf, UAE. Approximate duration: 2 hours.

Segment	Lead	Outcome
Welcome + context-setting	Zhan + Dymo	Rudi is oriented; the package is in hand
Product live demo on laptop	Zhan	zaahi.io behaves exactly as April 17
Pitch deck walkthrough (slides 1-18)	Zhan + Dymo	Complete understanding of product, market, team, strategy
Master Tree v3 visual — 10-year roadmap	Zhan	Rudi sees what the AED 1 M unlocks beyond Year 1
Term Sheet clause-by-clause review	Dymo leads	Each clause confirmed by Rudi or flagged for counsel
Financial model discussion; 4 sunset scenarios	Zhan leads	Year 1 projections and Year 1-5 trajectory agreed
Q&A	All three	No unanswered question goes home
MOU signature	All three	MOU signed; counsel engagement confirmed

Signing sequence

Sunday 2026-04-19 → MOU signed by all three Parties at Al Jurf
 Monday 2026-04-21 → Agency formation documents submitted (DED name reservation, draft AoA, KYC)
 First weeks → UAE counsel engaged (fast-track firm for MOU + SAFE review)
 2-4 weeks from submission → Dubai Mainland LLC registered; RERA company broker licence in parallel
 Upon entity completion → Post-Money SAFE executed; AED 1,000,000 wired
 June – July 2026 target → First agency deal closed (DLD transfer certificate); ADGM HoldCo formation triggered upon first closed deal
 After first closed deal → First profit distribution on the quarterly cadence per SHA Dividend Policy
 Later → Shareholders Agreement executed with top-tier counsel
 Sunset trigger (earlier of):
 (a) Rudi receives cumulative distributions totalling AED 2,000,000 from both entities; OR
 (b) 5 years since SAFE execution
 → Agency cap table rebalances 80/10/10 → 10/45/45
 → Platform cap table, profit split, Rudi's Platform 10 % unchanged

What Rudi takes home Sunday 2026-04-19

A printed and bound physical package in the following order:

1. This **README.md** — orientation and agenda.
2. **EXECUTIVE_SUMMARY.md** — one-pager.
3. **PITCH_DECK_v1.md** — 18 slides printed one-per-page on A4 landscape (or PDF on tablet).
4. **MOU_RUDI.md** — to be signed (three signature blocks + optional witness).
5. **TERM_SHEET.md** — for clause-by-clause review.
6. **FINANCIAL_MODEL_V1.md** — specification (with Excel / Google Sheets file URL on the cover page).
7. **LAUNCH_PLAN.md** — operational 12-month roadmap.
8. **PROFIT_DISTRIBUTION_MECHANICS.md** — dividend mechanics with worked example.
9. **ZHAN_PROTECTIONS.md** — Zhan's protection addendum.
10. **DYMO_PROTECTIONS.md** — Dymo's protection addendum.
11. **Q_AND_A_PREP.md** — anticipated questions, answered.

Binder cover: navy leather or premium stock, gold-foil ZAAHI wordmark, "CONFIDENTIAL · Prepared for Rudi · Sunday 2026-04-19 · Al Jurf" in subtle gold footer.

Also provided: - USB-C memory stick with the same content as PDF + Excel model. - Link to a Google Drive shared folder (view-access controlled). - Three signed paper copies of the MOU (one per Party).

Legal counsel recommendations

Two-firm split is standard for this kind of close:

Fast-track (MOU + SAFE review, first weeks) - Crimson Legal — startup-focused, pragmatic pricing (AED 40–100k range). - **Kayrouz & Associates** — tokenisation + financial services specialist (AED 50–120k range).

Top-tier (SHA, AoA, entity governance) - Al Tamimi & Company — regional leader, strongest corporate + RE + TMT bench (AED 150–300k range). - **Hadeef & Partners** — top local UAE firm (AED 100–200k range).

Exact firm selection is Zhan + Dymo's call based on initial consultation. Recommended: one firm in each tier engaged in parallel to compress the formal close.

Q&A preparation — likely Rudi questions

Full list with detailed answers in [Q_AND_A_PREP.md](#). Abridged here:

On ZAAHI product

Q: What is actually live today? A: [zaahi.io](#) in production with 114 parcels, 556,000 plots mapped across Dubai + Abu Dhabi + Oman via PMTiles, 3D ZAAHI Signature, Phase 1 dashboards (Owner/Buyer/Broker), tiered Ambassador program generating platform fees, Archibald AI assistant, feasibility calculator. Successful demo 2026-04-17 validated all core flows.

Q: How much of the Master Tree is built? A: Approximately 6–8 % by section count, higher by user-visible functionality weight. 2 of 85 sections fully built, 19 partial, 16 stubbed, 48 not started.

On the investment

Q: Why AED 10 M valuation? A: The post-money SAFE valuation is structured such that Rudi's AED 1 M yields **80 % of the Agency** (Agency post-money implied AED 1.25 M) plus **10 % of the Platform** granted at Platform formation. This is not a conventional 10 % stake / AED 10 M valuation — the deal is majority-investor into Agency plus a 10 % Platform sweetener. The language is in [TERM_SHEET.md](#) §6.

Q: What is the Sunset Clause? A: Rudi's 80 % Agency holding automatically converts to 10 % on the earlier of **(a)** cumulative cash distributions paid to Rudi totalling AED 2,000,000, or **(b)** 5 years since SAFE execution. Post-sunset: Dymo and Zhan hold 45 % each of Agency. Platform cap table and profit split are unchanged. Details in [MOU_RUDI.md](#) §4.

On governance

Q: Do I get a board seat? A: Yes. Three-director Board: Zhan, Dymo, Rudi. Ordinary Board matters by simple majority (2 of 3). Reserved matters (sale, dissolution, SHA amendment) go by shareholder vote — pre-sunset, Rudi's 80 % Agency controls; post-sunset, Dymo + Zhan's combined 90 % controls. In the Platform, Zhan's 80 % controls shareholder vote at all times.

Q: What if the agency doesn't earn enough and 2× never returns? A: The 5-year time trigger fires regardless of business performance — Sunset happens at Year 5 even if financial trigger hasn't met. Rudi's 1× non-participating liquidation preference separately protects him on any sale event. Platform upside (10 % Rudi) is lifetime, not affected by Agency performance.

Q: When do I receive dividends? A: Quarterly, per the Dividend Policy in the SHA. Rudi receives 10 % of Agency net profit per

PROFIT_DISTRIBUTION_MECHANICS.md §2.2. First distribution after first closed deal (June – July 2026 target).

Q: When do I receive financial reports? A: Monthly management summaries (15 days post-month), quarterly unaudited accounts (45 days post-quarter), annual audited financials (90 days post-year), immediate notification of material events within 48 hours.

On the team

Q: What if Zhan or Dymo leaves? A: 2-year reverse vesting with a 6-month cliff. Departure before month 6 forfeits 100 % unvested equity. After 6 months, equity vests monthly to full vesting at month 24. Rudi's equity is fully vested from day one.

Non-negotiable principles

These inform every document in this package. Not up for Sunday re-negotiation; only mechanics within them are.

1. **Rudi is the majority investor in the Agency until Sunset.** 80 % Agency equity, 1 board seat of 3, AED 1,000,000 commitment, Platform 10 % for life.
2. **Zhan has absolute operational authority over the Platform** (ADGM HoldCo), anchored by his 80 % Platform holding.
3. **Dymo has operational authority over the Agency** (Dubai Mainland LLC) as Operations Principal, with 10 % Agency equity pre-sunset upgrading to 45 % at Sunset.
4. **Every agency deal profit is split 70 / 10 / 10 / 10** — 70 % Platform Development Fund, 10 % each to Rudi, Dymo, Zhan. Fixed for the lifetime of the Agency, pre- and post-Sunset.
5. **The Sunset triggers automatically on the earlier of AED 2 M cumulative distributions to Rudi OR 5 years.** No discretion; built into the SHA.
6. **ZAAHI is one company, two entities.** Agency is the immediate revenue engine; Platform is the long-horizon asset. Neither is separable in the founder vision.
7. **Self-sovereignty is architectural.** Every piece of tooling ZAAHI uses is chosen with a migration path to own infrastructure.
8. **Additive only for Master Tree.** 85 sections are the canonical surface; we add, we refine, we never delete.

What remains for Zhan + Dymo to refine before Sunday

1. **Rudi's legal vehicle.** Personal vs SPV vs family office. Affects KYC and SAFE signatory block.
 2. **Post-money valuation language.** Agency implied 1.25 M post-money with Platform 10 % granted separately. Confirm this framing before SAFE drafting.
 3. **Salary floor calibration.** Year 1 figure agreed within the AED 30,000 – 50,000 range per [ZHAN_PROTECTIONS.md](#) §1.2 and [DYMO_PROTECTIONS.md](#) §1.2.
 4. **First-deal trigger for Platform entity formation.** Currently "first closed agency deal = DLD transfer certificate". Confirm.
 5. **Office location.** Decision on Agency office lease (central Dubai / Abu Dhabi / other). Not Al Jurf necessarily — Al Jurf is the Sunday meeting venue, not the operating office.
-

Gaps requiring professional legal review

- **SAFE tax treatment** under UAE CT regime. Dual-entity allocation (80 % Agency + 10 % Platform) from single AED 1 M SAFE needs counsel sign-off.
 - **Anti-dilution** — dropped from this package (Rudi's 80 % majority position does not require full-ratchet protection pre-Sunset; post-Sunset, his 10 % position is similar to any minority). Counsel should confirm no anti-dilution clause is needed, or insert minimal weighted-average protection if required.
 - **Sunset ledger mechanics** — automatic share-transfer mechanics at Sunset trigger without further Board resolution.
 - **Dividend Policy clause language** — per [PROFIT_DISTRIBUTION_MECHANICS.md](#) §9.
 - **Inter-company funding mechanism** (70 % flow Agency → Platform) — Service Agreement vs capital contribution, transfer-pricing study.
 - **RERA Broker Card transition** — individual cards (held by Zhan and Dymo today) are not transferable; sequence re-issuance under new LLC.
 - **Abu Dhabi nexus** — if Agency office is located in Abu Dhabi, ADREC registration required or AD branch of Dubai LLC.
-
